

July 12, 2013

Dear Representative Price,

Our more than two million supporters are grateful for your efforts to strip the IRS of any authority over the Affordable Care Act as embodied in H.R. 2009 which you have introduced. Our organization fully endorses this legislation.

We note with discomfort that this agency seems not only beyond the control of those tasked with oversight but willfully resists full disclosure of questionable practices and abusive methods in Congressional testimony. We have concluded, based on the evidence at hand, that this agency is being cynically used for political purposes to frustrate and intimidate law-abiding citizens who disagree with Administration policies.

This distortion of the proper role and functioning of the IRS makes turning over responsibility for the Affordable Care Act subsidies, penalties and, significantly, access to private insurance and medical records, a frightening prospect. We are therefore in complete agreement with the purpose of H.R. 2009 and fully support passage as the only responsible and prudent course of action.

Thank you for leadership and hard work in developing this legislation and for representing the best interests of not only your constituents but the American people.

Respectfully and gratefully yours,

Ken Hoagland, Chairman
Restore America's Voice Foundation
